this book is written by dr jaideep randhawa and it includes the following chapters it also includes the details about the author stories word meanings central idea paraphrase summary critical appreciation question answers based on workbooks morning star evergreen and more and extra questions the chapters are 1 chief s seattle speech 2 the old man at a bridge 3 a horse and two goats 4 hearts and hands 5 a face in the dark 6 angel in disguise 7 the little match girl 8 the blue bead 9 my greatest olympic prize 10 all summer in a day

this book provides an overview of current research on the development of reading skills as well as practices to assist educational professionals with assessment prevention and intervention for students with reading difficulties the book reviews the componential model of reading cmr and provides assessment techniques instructional recommendations and application models it pinpoints specific cognitive psychological and environmental deficits contributing to low reading skills so educators can accurately identify student problems and design and implement appropriate interventions chapters offer methods for assessing problems in decoding word and sound recognition and comprehension in addition chapters emphasize the recognition of student individuality as

readers and learners from understanding distinctions between difficulties and disabilities to the effects of first language orthography on second language learning topics featured in this book include learning the structure of language at the word level reading comprehension and reading comprehension difficulties assessing reading in second language learners effective prevention and intervention for word level reading difficulties the neurobiological nature of developmental dyslexia reading development and difficulties is a must have resource for researchers practitioners and graduate students in varied fields including child and school psychology assessment testing and evaluation social work and special education i think the book has the potential to be a game changer it will certainly challenge the expectations of policy makers not to mention the teachers of beginning readers these chapters will enhance the knowledge base of those in our schools who are charged with the lofty task of assuring that children have the best possible opportunities to acquire the skill of reading sir jim rose chair and author of independent review of the teaching of early reading final report 2006

challenging existing lexical semantic accounts this book presents a compositional approach to the concept of factivity and its acquisition factive sentences such as john forgot that he bought wine presuppose the truth of the embedded complement the author argues that a satisfactory characterization of factivity can only be accomplished if its multiple dimensions are acknowledged a thorough examination of the empirical data demonstrates that factivity rather than being a property of the matrix predicate results from the complex interaction of lexical semantic syntactic and discourse semantic factors focusing on english the predictions of this compositional approach to factivity are tested with production and comprehension data covering children s acquisitional patterns between the ages of 2 and 8 after a comprehensive review of previous studies the author presents two rigorously designed comprehension experiments and a detailed analysis of two longitudinal corpora the child data provides convincing evidence that the multidimensionality of factivity is mirrored in the acquisition process by a stepwise mastery of its different components children produce and correctly interpret factive structures around age 4 but certain syntactic and discourse semantic properties are not learned before age 7 this book should be of interest to advanced students and researchers in both theoretical linguistics and language acquisition

children are being diagnosed with autism spectrum disorders at a staggering rate as many as one in 110 according to some studies to this sobering statistic add the familiar figures of the toddler disengaged from his peers the middle schooler shunned in the lunchroom and the adult struggling with social cues on the job and professionals are faced with a mounting challenge to assist and support young people with these disorders to ensure their successful transition to adolescence and adulthood the first volume dedicated solely to its topic interventions for autism spectrum disorders provides a comprehensive overview of programs currently in use contributors explore programs focusing on long term outcomes home and classroom based strategies resilience training for parents and pharmacological management of symptoms background chapters review

issues in reliability and validity of interventions and evaluating treatment effectiveness and an especially cogent chapter discusses the centrality of treatment integrity to best practice comprehensive programs and targeted interventions covered include the early start denver model for young children the teacch program for children adults and families the center for autism and related disorders card and card elearning progress a program for remediating and expanding social skills evidence based strategies for repetitive behaviors and sensory issues self regulation strategies for students with autism spectrum disorders interventions for autism spectrum disorders is an essential resource for researchers professionals practitioners and clinicians in a wide array of fields including clinical child school and developmental psychology child and adolescent psychiatry education rehabilitation medicine therapy social work and pediatrics
